Data Format Notes

- *1 Dimensions and weight are approximate
- *2 Speeds are contingent upon applications, machine configuration, and status. Individual speeds may vary.
 *3 Requires optional Printer Controller Module (for Adobe PS).

TIFF-FX (Profile S/F/J) (Internet Fax)

- *3 Requires optional Printer Controller Module (for Adobe PS).
 *4 Requires optional page memory.
 *5 Scanning speed applies to the feeding process from the top to the end of a single page test thart.
 The time for the feeding process does not include the time that it takes for the top edge of the page to reach the scanning point and page ejection. Time for entire storing process is not applied.
 *6 Transmission time applies to memory transmission of text data using only TIU-T image No.1 between the same model at maximum modern speed. Transmission time may vary in actual usage.
 Usually public telephone lines can only support communication speeds of 28.8 Kbps or lower.
 Via FBX, transmission speed may fall back to a lower speed.
 *7 Based on ITU-T image No.1 scanned in Standard mode.
